WORK EXPERIENCE

Xirect Software Solutions | 10/2022 - 12/2023 | Utah, USA

- Developed and maintained web applications using Vue.js/Nuxt, Vuetify, and Vuex
- Collaborated with cross-functional teams to implement new features and APIs.
- Participated in the redesign of an old internal application built in ASP.NET.
- Ionic and React.js application development, successfully ensuring the maintenance of a cross-platform solution tailored for agile incident management within the dynamic landscape of machine operations.

Dupan.io | 07/2022 - 10/2022 | Buenos Aires, AR

- Implemented React/Redux/Typescript solutions for the frontend of the platform.
- Collaboration with the design team to translate wireframes into Figma designs and interactive user interface.
